1 COVERINGS ETC. BIO-GLASS

2 WILSONART DECORATIVE EDGES CASCADE

3 MAPEI ECO PRIM GRIP

## SURFACES: MISC.

### COVERINGS ETC. Bio-Glass

Category: **Surfaces: Misc.**

#### 1 One-Of-A-Kind Look

Bio-Glass is made from 100% upcycled glass from bottles and is available in white, light green, dark green, blue and brown. The glass is created by heating and fusing shards together and can be used for countertops, partitions, facades and other decorative surfaces. The layers of compressed glass create a unique pattern through which light permeates. "People will be especially drawn to the translucent look of the product and its sustainability."

### WILSONART Decorative Edges Cascade

Category: **Surfaces: Misc.**

#### 2 Got an Edge

Wilsonart Decorative Edges Cascade was inspired by the elegant curve of a cascading waterfall and gives countertops a thicker, seamless look. Made with Wilsonart's HD technology with AEON Enhanced Performance Technology, the countertops are four times more wear-resistant and five times more scuff- and scratch-resistant than standard laminate countertops. One judge described it as a winner in this Category for its ability to "minimize the obvious signs of a thin laminate."

### MAPEI ECO Prim Grip

Category: **Surfaces: Misc.**

#### 3 Bonded Together

Easy-to-use, low VOC, synthetic resin-based, bond-promoting primer prepares an existing tile or stone surface to receive a new installation without the time, labor or dust of scarification. ECO Prim Grip by Mapei enhances the performance of mortars and their adhesion to existing ceramics and other difficult substrates and can be applied with a roller in only one coat.

#### JUDGES' COMMENTS:

"People will be especially drawn to the [Bio-Glass'] translucent look of the product and its sustainability."

#### HONORABLE MENTION:

**GLASS RECYCLED GLASSMODE PRODUCTS:** Suitable for a range of surfaces, judges liked that these products are made from 100% recycled glass and/or 100% recycled porcelain combined with VOC-free color customizable epoxy resin. [www.glassrecycled.com](http://www.glassrecycled.com)

# HUFCOR PARTITIONS

OPERABLE  
VERTICAL LIFT  
GLASSWALL  
ACCORDION

## Your space flexibility issues are about to go up, up and away.

Hufcor, global leader in operable partitions, introduces the Summit® vertical lift operable wall system. With the touch of a button, panels cascade down through a narrow slot, quietly sliding into place and rise to store above the ceiling when not needed.

The upside doesn't stop there, Summit® eliminates the floor storage space needed with traditional movable panel partitions. Of course, you'll still enjoy Hufcor's trademark superior quality and acoustical separation.

# HUFCOR®

WORLD LEADER IN FLEXIBLE  
SPACE MANAGEMENT
