SUSTAINABILITY AT COVERINGS

Our environmental mission at COVERINGS ETC is to prioritize environmental care in every aspect of our business, from the products we showcase to the practices we operate and the contributions we make to the community.

We are committed to setting an example of sustainable leadership and responsibility, and we strive to create a better world for all.

Our dedication to sustainability is reflected in the third-party certifications and listings our materials have earned from industry leaders such as Cradle-to-Cradle, Material ConneXion, NSF, and GreenSpec.

A leading producer of sustainable materials, awarded the Cradle to Cradle Certified® Gold designation for its BIO-GLASS® material, a product made entirely from recycled glass.

• CRADLE TO CRADLE

This prestigious recognition is a testament to Coverings ETC's unwavering commitment to eco-friendly and sustainable manufacturing practices, as well as its dedication to reducing its carbon footprint and contributing to the circular economy.

BIO-GLASS® is a fully recyclable, circular material that can be utilized in various applications, including countertops, flooring, and wall tiles.

Coverings ETC's Future Friendly™ collection represents its commitment to creating environmentally-friendly, high-quality products while minimizing its impact on the environment. The Cradle to Cradle Certified® program evaluates products based on five critical categories, including material health, material reutilization, renewable energy use, water stewardship, and social fairness.

Coverings ETC's achievement of the Cradle to Cradle Certified® Gold designation reflects its tireless efforts to produce a top-quality product that meets and exceeds strict sustainability standards. Its commitment to protecting the environment while creating resilient materials is a shining example of its dedication to sustainable practices.
